

### assignment 3 | strength hybrid

In assignment 2 you identified several goals, influences, strengths, and weaknesses. For this assignment take 2 qualities from different influences of yours and create a project that fuses those qualities along with at least one of your strengths.

For example:

Influence 1: Little Friends of Printmaking, particularly like the illustration style and use of colors

+

Influence 2: Eduardo Recife ([misprintedtype.com](http://misprintedtype.com)), his use of vintage collage elements

+

Strengths: good at making custom typefaces and screen printing

=

A 2-color screen printed poster using custom drawn and collaged letterforms

Assignment 3 is due at the beginning of next class. As with the first assignment it is expected that this work is a finished fully realized design artifact, it is not a sketch or comp. Be aware of the limitation in time and budget time accordingly, yet simultaneously don't make the scope of work so simple that a 3rd grader could accomplish the task.
