

assignment 4 | weakness hybrid

In assignment 2 you identified several goals, influences, strengths, and weaknesses. For this assignment take 2 qualities from different influences of yours (you cannot choose the same from assignment 3) and create a project that fuses those qualities along with at least one of your weaknesses.

For example:

Influence 1: Alex Trochut, particularly like his custom typographic illustration

+

Influence 2: Nicolas Malinowsky, I his like surrealist imagery which has a sense of humor at times

+

Weaknesses: not good at illustration

=

A surrealist typographic illustration

Assignment 4 is due at the beginning of next class. As with the last assignment it is expected that this work is a finished fully realized design artifact, it is not a sketch or comp. Be aware of the limitation in time and budget time accordingly, yet simultaneously don't make the scope of work so simple that a 6th grader could accomplish the task.
